SUMMARY

Full Stack Developer with hands-on experience building production-grade interfaces in React.js, Vue.js, and TypeScript, alongside Node.js backend integration. Six months of experience delivering features for an enterprise client engagement, combined with strong test automation skills using Playwright, Selenium, and Pytest. Seeking Full Stack Developer / Frontend Developer roles at teams that value clean code, test coverage, and shipping fast.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, C, SQL
Frontend: React.js, Vue.js, Tailwind CSS, HTML5, CSS3, Responsive Design
Backend: Node.js, REST API Integration
Test Automation: Playwright, Selenium, Pytest, Page Object Model, CI-ready test suites
Databases: SQL
Tools & Platforms: Git, VS Code, IntelliJ IDEA, NetBeans
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

EXPERIENCE

CBNITS India Private Limited <i>Frontend & Full Stack Development Intern</i>	Remote / On-site <i>Jan 2026 – Present</i>
- Developed and maintained responsive, production-ready UI features for an enterprise client engagement (life sciences sector) using React.js, TypeScript, and Vue.js, collaborating with cross-functional teams to translate requirements into shipped functionality. - Built and maintained reusable UI components across multiple in-house and client projects using React.js, Vue.js, and Node.js, improving development consistency and reducing duplicate code. - Designed and executed automated end-to-end and regression test suites using Playwright, Selenium, and Pytest, improving application reliability and catching defects before release.	

PROJECTS

Personalized Learning Assistant (MY VIE) | *Flask, Gemini API, JavaScript*

- Built an AI-powered web application integrated with the Gemini API supporting question-answering, PDF-based context retrieval, and voice/text interaction, designed as a personalized tutor with a professional dark-themed UI.

Weather Forecast App | *React.js, Chart.js, Open-Meteo API*

- Developed a weather application with live data visualization using Chart.js, API response caching, and dynamic UI gradients based on current conditions.

Pokedex & Team Builder | *React.js, PokeAPI*

- Built an interactive Pokedex application with search, filtering, and a team-builder module consuming a public REST API.

Portfolio Website | *HTML, CSS, JavaScript*

- Designed and built a responsive personal portfolio site to showcase projects, skills, and achievements with a modern, accessible UI.

EDUCATION

Maulana Abul Kalam Azad University of Technology (MAKAUT), formerly WBUT <i>B.Tech in Computer Science and Engineering; CGPA: 7.53</i>	West Bengal, India <i>2022 – 2026</i>
--	--

CERTIFICATIONS

Data Structures and Algorithms Udemy	Jan 2025 – Mar 2025
Machine Learning Indian Institute of Internship	Jun 2025 – Jul 2025

EXTRACURRICULAR ACTIVITIES

- Competitive Badminton and Cricket player at the college level.
- Volunteered at college fest *Magnus'23*.
